

Summer Strength Training

Start with 10 minutes of abdominal exercises.

Do 30 seconds on each exercise.

There are 20 exercises.

1. **Tunge Situps:** Lie on your back with one leg 90 degrees and one leg stretched straight above the ground (don't let it touch). Do a regular situp. Then switch and continue.
2. **Etasjesitups floor Situps:** Lie on your back and have your legs at degrees. Do a regular situp but divide it into parts. Go up a $\frac{1}{4}$ of a full situp then down, then $\frac{1}{2}$ then down then $\frac{3}{4}$ then down then full situp then down.
3. **Beinkryss leg Mooring:** Lie on your back with your legs just above the ground and upper body in upright position. Then spread your legs, then cross your legs, and then spread them again, then cross them with the other leg over the top without moving your torso .
4. **Vanlige situps:** Lie on your back with your legs at 90 degrees. Do small crunches with fast up and slowdown.
5. **Korte situps:** Lie on your back with straight legs. Lifting the neck and upper back up, not too much back, and then dropping down again, quickly up, slowly down. You are trying to work the top part of your epic six pack.
6. **Bestemorsitups:** Lie on your back and have your legs at 90 degrees. Do a regular situp but wiggle back and forth as you do it.
7. **Lange situps:** Lie on your back with your at 90 degrees . Then lift your upper body up completely to the top, then down spending 5 seconds on the way down and quickly to the top.
8. **Korte sidesitups:** Lie on your back with your legs relaxed flat on the ground. Lifting the neck and upper back up towards one side and down again, every other side .
9. **Vanlige sidesitups (right):** Lie on your back with one leg crossed over the other. Lift your upper body up at an angle toward the opposite knee , touch the knee with the elbow, and then down again.
10. **Vanlige sidesitups (left):** Lie on your back with one leg crossed over the other. Lift your upper body up at an angle toward the opposite knee , touch the knee with the elbow, and then down again.
11. **Side sidesitups (right):** Lying on your side lift your torso up , straight up sideways , and down.
12. **Side sidesitups (left):** Lying on your side lift your torso up , straight up sideways , and down.
13. **Grabbern:** Lie on your back with your legs just above the ground and upper body lying on the ground. Pull your upper body and legs together, tough your toes. Then out again to the starting position. Legs should never touch down .
14. **Strekk-ups:** Lie on your back with your legs straight up. Use your upper body and stretch your arms so you can touch your toes . Then back down to the starting position.

15. **Hoftestrek:** Lie on your back with your legs slightly off the ground . Keeping your upper body on the ground, lift up the legs until they are completely straight to the upright position. Add a little extra tilt at the end to get the spine up . Then down to start, but the legs will not touch the ground.
16. **Vindusviskeren:** Lie on your back with your legs straight up. Go down with legs to one side and then straight back and over to the other side, like a windshield wiper.
17. **Side strekk-ups:** Lie on your back with your legs straight up. Roll up with and reach the opposite toe with your opposite hand. Switch sides every time down.
18. **Sidegrabbern (right):** Lie on your side with your legs twisted up at 90 degrees. Reach up and touch your toes on the side.
19. **Sidegrabbern (left):** Lie on your side with your legs twisted up at 90 degrees. Reach up and touch your toes on the side.
20. **Sykling:** Lie on your back with your legs off the ground. Touch your right elbow to your left knee and switch (bicycles)

Then 5 minutes back, 30 seconds on each exercise, 10 exercises

1. **Vanlige ryggups:** Lie on your stomach with your legs relaxed . Then lift your torso up. Quickly up, slow on the way down . Hold your arms out to the side and let them join the movement .
2. **Korte ryggups:** Lie on your stomach with your legs relaxed . Lifting the neck and upper back up , not too much back, and then dropping down again , up quickly , slowly down .
3. **Vanlige sideryggups:** Lie on your stomach with your legs relaxed . Lift your upper body up at an angle to the opposite side as far as you can, and then slowly down again. Every other side
4. **Strekk-backs:** Lie on your stomach with your legs straight out. Go up the upper body and stretch one arm backward while you bend opposite leg forward, so you can touch your toes.
5. **Selen:** Lie on your stomach with your legs relaxed and arms crossed on your back . Then go up the upper body to the right, down to the common position and then up to the left . You look like a seal that will have food, hence the name ;)
6. **Strake pendlinger:** Lie on your stomach with your arms and legs straight out. Commute up and down with arms and legs every time in fast motion .
7. **Beinløfteren:** Lie on your stomach with your upper body relaxed and your legs stretched out straight from the ground. Lift both legs simultaneously up and drop down without touching the ground.
8. **Etsjeryggups:** Lie on your stomach. Go up a $\frac{1}{4}$ then down, then $\frac{1}{2}$ then down then $\frac{3}{4}$ then down then full then down.
9. **Skiløperen høyre (Right):** Stand upright with your left leg on the ground . Then stretch out your leg backwards and the upper body and arms forward so your body is in a straight line for about 45 degree angle to the ground. Then retreat into a small ball and then stretch out again .
10. **Skiløperen høyre (Left):** Stand upright with your left leg on the ground . Then stretch out your leg backwards and the upper body and arms forward so your body is in a straight line for about 45 degree angle to the ground. Then retreat into a small ball and then stretch out again .
